Game points are accumulated for the whole set. **2 time out per set.**

The match is played **only one game at a time**, as a set is a **race** and the team (or player) of the following game has to be prepared on the other table to start **immediately** if a game is finished.

The **ball is always served by the team who received the last goal** (also after a set).
The time between goals, games, sets is the same as for individual matches.

Team line-ups for all the sets must be listed on the game sheet before the start of the match, including penalty in elimination.

Penalty shootout is played by **4 players** (all players of a team - including reserve players - are allowed to shoot penalties).

2 out of 3 reserved players noted on the game sheet can enter in the match but **not during the first set**, and only **before the start of a next set**. Once a player is substituted, he is not allowed to play again.

2 Coin flips : first to choose the side of the table for the whole match - second to decide which table is played first (second set will start on the second table and third on the first one) or the ball.

In qualification : **1 set is played** - first to 21 with possible tie (20:20). A match **win give 2 points, Tie 1 point, lose 0.**

In elimination : **best of 3 sets - no tie** in each set : in the 1st and 2nd sets, if it is 20:20, a **6th ball** will be played in the last game to finish at **21:20**. If there is a **tie in the 3rd set**, there will be **penalty shootout**.

Training during the set is allowed **on the free table BUT only for the team who is next on turn to play**. Each team has **3 seconds to begin** their game right after the game of the team before them has finished playing.

Exception: Women ECL players are allowed to change only the three rod handle in case they have to play one game after another one in the set.
